Extra registration sessions were held at all the Little City Halls, located throughout the city, during the year.

Physically disabled: In accordance with the provisions of chapter 196 of the Acts of 1946, as amended, persons qualified to vote but who were unable to appear at a registration office because of a physical disability were examined in their homes or other places of confinement upon receipt of an application for such registration. Persons so registered or found on the voting list were furnished with an application for absentee ballots.

NUMBER OF VOTERS

At the City Election held on November 4, 1975, the number of voters on the list was 256,961. The number of voters on the first list published by the Board for 1976 was 227,598. From that time to the close of registration for the State Election, there were added the names of 43,516 voters. Included in this figure are the names of 5,052 voters who were restored to the voting list without registration under the provisions of chapter 244 of the Acts of 1947, as amended, and chapter 555 of the Acts of 1973, as amended. The number of voters on the day of the State Election held November 2, 1976, was 271,114, an increase of 14,153 above the number of voters on the list preceding the City Election. From this figure the names of 5,090 voters were removed from the list because of deaths and removals from the city. The number of voters on the final list was 266,024.

NOMINATION PAPERS, REREFENDUM, AND RECOUNT PETITIONS

The Board received 7,118 nomination papers for the State Primaries on which 146,000 names were certified; 451 referendum petitions on which 10,245 names were certified; and 44 recount petitions for the recount of ballots cast in the State Primaries, on which 458 names were certified. This made a total of 7,613 papers filed on which the names of 156,703 voters were certified.

RECOUNTS

A recount of votes cast in the State Primaries for the office of Representative in the General Court in the Twelfth Suffolk Representative District and the Twenty-Third Suffolk Representative District was held on September 24, 1976, in Wards 11, 19, and 20.

REVISION OF THE VOTING LIST

The names of 5,332 voters were stricken from the voting list by reason of death, removal from the city, and other causes.

JURORS

The jury list prepared by the Board in 1976 contained the names of 10,257 residents of Boston. During the time covered by this report, 5,472 names were drawn for jury service.

ABSENTEE VOTING

Absentee voting applied to the State Primaries and to the State Election in accordance with chapter 632 of the Acts of 1968, chapter 920 of the Acts of 1971, and chapter 123 of the Acts of 1966, regulating the method of processing and counting of absentee ballots made it mandatory that after processing and examination of the affidavits in the central office is completed, the absentee ballots must be sent to the precinct polling places to be cast and counted. Then the said count of absentee ballots cast was to be added to the count of the votes cast by the use of the voting machines in order that the precinct total could be recorded and reported at the precinct level.

Chapter 267 of the Acts of 1975 allowed that absentee ballots received on election day shall be processed and examined in the central office and may be counted at the office at the hour of closing of the polls. After the canvass and the count has been completed, each precinct tally sheet, official returns book, and check list shall be amended when delivered to the central office.

Chapter 368 of the Acts of 1966, further regulating absentee voting made it possible for a registered voter who would be absent from the city on the day of the election and who had no mailing address outside of Boston to which a ballot could be mailed and seasonably returned in time to be sent to the polling place before the closing of the polls on election day, to receive a ballot in hand and vote by such ballot in the central office before he departed from the city.

VOTES CAST ON LAW PROPOSED BY INITIATIVE PETITION
STATE ELECTION, NOVEMBER 2, 1976
Massachusetts Power Authority

Question No. 4

Law Proposed by an Initiative Petition

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 5, 1975, by a vote of 179-46, and on which no vote was taken by the Senate before May 7, 1975?

SUMMARY

SECTION 1 of the act inserts a new chapter 164B into the General Laws and establishes a Massachusetts Power Authority, a body corporate and politic with seven members appointed by the Governor to staggered six year terms. The Authority is to establish and operate a bulk power supply system to supply wholesale electric power to utilities throughout the Commonwealth. The primary purpose of the Authority is to supply the Commonwealth with power with the minimum adverse impact on the environment. The Authority is also authorized to engage in research and development of new sources of power, new siting techniques, and methods of environmental protection.

In carrying out its responsibilities, the Authority is authorized to adopt by-laws; adopt an official seal; maintain offices; sue and be sued; construct or acquire facilities either within or without the Commonwealth; issue revenue bonds and borrow money in anticipation of issuance of revenue bonds; acquire real and personal property; employ professional, managerial and other employees deemed necessary and fix their compensation to be paid solely out of revenues of the Authority; appear before other government agencies; apply for and receive federal or other grants of funds; and enter into contracts and agreements.

The Authority will build and operate all new generating and transmission facilities in the Commonwealth and has the option to purchase existing facilities through negotiation, condemnation, or eminent domain. After an initial two-year period, no other utility may construct a new facility unless the Authority certifies that it lacks the capability to finance the facility and the facility would further the purposes of the act.

The Authority will finance its activities by issuing revenue bonds. The bonds will be exempt from state taxation, but will not be backed by the full faith and credit of the Commonwealth. Power will be sold to other utilities by contract but no special discounts or bonuses to promote the increased use of power may be given. Public hearings are required on all major contracts.

The Authority is required to develop a master, 20-year demand study and siting plan within 18 months of its incorporation, to be updated each succeeding year. Sites will be selected in accordance with the Electric Power Facilities Siting Council Act of 1973. The Governor and the community in which any facility is to be located must affirmatively approve the facility before it can be constructed.

The Authority will be subject to all applicable federal and state environmental standards and must obtain all necessary federal and state permits and complete all necessary environmental impact statements.

(Question 4 summary)

The Authority will be exempt from taxation but will make payments in lieu of taxes to cities and towns in an amount equal to the tax which would be paid if the Authority's real and personal property were owned by a private electric utility company.

The Authority is forbidden from engaging in promotional or image advertising. The Authority has the authority to bargain collectively with its employees and is subject to the provisions of Chapter 150 of the General Laws, which governs the conciliation and arbitration of industrial disputes. Employees of the Authority are not subject to the civil service law and rules. Employees of utilities displaced by the activities of the Authority have first preference in employment by the Authority.

SECTION 2 of the act amends section 43 of Chapter 164 of the General Laws to provide that if a city or town votes, in accordance with the provision of Chapter 164, to establish a municipal utility and acquire the facilities of the utility currently serving the community, and the utility refuses to sell its property to the city or town, that the Department of Public Utilities will establish a fair price for the facilities, and the utility will be required to accept the price determined by the department and tender the deed for the facilities to the city or town.

Banning Private Handguns

Question No. 5

Law Proposed by Initiative Petition

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 3, 1976, by a vote of 197-35, and on which no vote was taken by the Senate before May 5, 1976?

SUMMARY

The proposed legislation would prohibit the possession, ownership, or sale of any weapon from which a shot or bullet can be discharged and which has a barrel length of less than sixteen inches. The prohibition would not apply to military personnel, law enforcement officers, federally licensed handgun manufacturers and wholesalers, common carriers in the ordinary course of transport, or to historical societies and museums. The act would not affect the possession of rifles, shotguns, and certain antiques and replicas. The proposal also does not change the existing statutory penalties for unlawful possession, ownership or sale of handguns, including provision imposing mandatory jail sentences.

The proposal would permit owners of handguns to surrender their weapons to any law enforcement agency in the Commonwealth within six months of the effective date of the act without incurring criminal liability. Those surrendering handguns within that six months will be compensated at a rate to be determined by the Commissioner of Public Safety.

Controls on Bottles and Cans

Question No. 6

Law Proposed by an Initiative Petition

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 3, 1976, by a vote of 146-85, and on which no vote was taken by the Senate before May 5, 1976?

SUMMARY

The proposed act would require every beverage container sold or offered for sale in the Commonwealth to have a refund value of at least five (5) cents, and would prohibit the sale of metal beverage containers with flip-tops. It would apply to containers for beer and other malt beverages and to soft drinks. It would not apply to containers for dairy products or natural fruit juices, nor to containers which are biodegradable.

The act would authorize the Secretary of Environmental Affairs to certify containers as reusable or recyclable. It contains both enforcement and penalty provisions and would take effect on February 1, 1977.

Uniform Electric Rates

Question No. 7

Law Proposed by an Initiative Petition

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 3, 1976, by a vote of 182-49, and on which no vote was taken by the Senate before May 5, 1976?

SUMMARY

The proposed act would impose a general requirement that every electric utility company charge a uniform rate per kilowatt hour of electricity. The proposed act would except from this general rule rates charged to other electric utility companies and to residential customers who heat their principle place of residence by electricity. The Act would also permit a different rate to be charged residential customers for the first three hundred (300) kilowatt hours they consume each month, and would authorize "peak load" pricing whereby a higher rate than the uniform rate per kilowatt hour may be charged during the periods of the day or seasons of the year when consumption of electricity is the greatest. The Act would authorize the Department of Public Utilities to issue implementing rules and regulations and provides for enforcement.

OIL REFINERY AND DEEP WATER PORT**

State Election, November 2, 1976

Question No. 8
